

SUMMER STEAM CAMPS

There may only be 1,080 formal education days during a student's elementary years, but you can take advantage of 360 days a year to build a love of learning and strong foundation in STEAM. Ten80's STEAMStart camp for K-2 and Driving STEM for grades 3-5 help you do that.

Ten80 Elementary curriculum delivers STEAM project based programming with a purpose. As with all Ten80 Education materials, these camps are "project based learning that doesn't forget the learning." Use the summer months to:

- Reinforce and challenge students,
- Foster a love of learning in STEAM,
- Boost understanding of core subject content,
- Reinforce data-based decision making and
- Build a foundation for long range success in mathematics and problem solving.

STEAMStart Camp for K-2

Introduce students to the world of true project based learning. Begin with a story that leads to an engineering and design challenge. Young children use core skills in aesthetically beautiful project-based learning. Design process and fabrication of scale models develops logical decision-making. Students build spatial awareness; use math skills in real world challenges; develop problem-solving tools; increase manual dexterity and focus on attention to detail.

Driving STEM for Grades 3 - 5

Introduce math modeling through the excitement of racing. Small radio controlled cars engage kids while building deeper understanding of STEM and teamwork. Support core curriculum requirements for inquiry based math modeling on a small-scale classroom race track.

Ten80 Summer Camps Include

All Ten80 Summer Camps provide the following:

- Live 90-minute web-based training and support through 24-hour forums and quick turnaround on email and phone requests.
- Non-consumable materials for 24 campers working in groups of 4. Add booster kits for additional teams.
- Print pack includes teacher guide, one activity guide for every team of four and one logbook for every student.
- License to run one camp and access to online resources. Additional license is only \$10 per camper.

Ordering Information

| Camp Item | Catalog # | \$ Each |
|---|-----------|---------|
| STEAMStart Camp | STST-21 | \$1170 |
| STAMStart Camp license, per student | STST-51 | \$10 |
| Driving STEM Camp for 3rd Grade | M2G-21-3 | \$2,497 |
| Driving STEM Camp for 4th Grade | M2G-21-4 | \$2,497 |
| Driving STEM Camp for 5th Grade | M2G-21-5 | \$2,497 |
| Driving STEM Booster Kit (1 set of materials) | M2G-02 | \$129 |
| Camp license, per student | M2G-51 | \$10 |
