

TEN80 J.R. STEM CAMP / CLUB

WHY J.R.? BECAUSE IT'S STEM THAT'S NOT TOO HARD. NOT TOO SOFT. IT'S JUUUUST RIGHT!

TEN80 J.R. STEM CAMP

Inspired by Ten80's CuS.T.E.M. Car events with SEMA Education*, and the many thousands of students and teachers who raved about it being the "best STEM experience ever"!

Curriculum provides 15 - 30 contact hours, including a collection of these challenges:

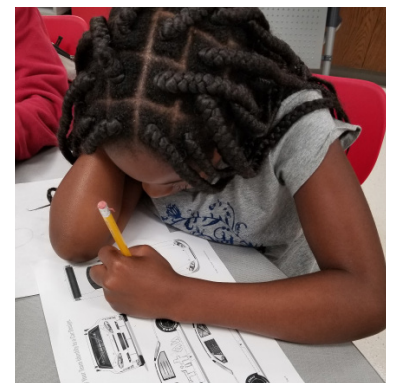

- **Ramp Rollers:** What is the juuuuust right car and track design to hit your mark?
- **The Goldilocks Challenge:** What is the juuuuust right payload to maximize efficiency?
- **Customize Your Ride:** What is the custom car design that is juuuuust right for you? Can you light it up with circuits and LED's?
- **Pitch Your Brand:** 30-seconds is juuuuust right for an elevator pitch. Can you tell the story of your team's brand before the buzzer?
- **Reverse Engineering:** A toy dissection that is juuuuust right for revealing how moving parts work together.

FEATURES OF ALL TEN80 STEM CAMPS/CLUBS:

- Hands-on, team-oriented challenges
- Emphasis on creativity and leadership to engage traditionally underserved audiences in STEM
- Reinforcement for fundamental science and math concepts and 21st Century Skills practice
- Facilitator training, live support, and resources that make it quick to learn and easy to implement
- Ideal for recruiting students into STEM schools and programs
- Beyond robotics - engineering and tech related to the everyday world

* SEMA is an international auto-related association
