

You're Invited!

Ten80 Education

VIP Coffee & Conversation

September 14, 2016 · 8 AM – 9:30 AM

St. Louis University's Chaifetz Arena

1 South Compton Ave. St. Louis, MO 63103

"Every student is a STEM student because increasingly, everyone needs the ability to think critically and apply the lessons that STEM teaches us about turning ideas into reality."

—Terri Stripling, CEO & President

Does your school want a more integrated, interactive way to teach STEM? Does your organization support STEM education? Does your company believe in inspiring the next generation of students to choose a STEM career?

Ten80 and Partners in STEM, a 501(c)3 dedicated to promoting best practices in STEM and STEAM education, are facilitating conversations to build collaborations that expand access and participation to better serve our students, educators and employers who count on a strong workforce. We invite leaders in STEM to share model programs and best practices with our team and others aspiring to empower all young people to understand and maximize their potential as critical thinkers, leaders and productive citizens in a prosperous society.

Please join us to learn how our team, our education partners, and your organization can make a significant impact on STEM education. Time permitting, stay to observe the STEM Innovators-in-Training Experience in action.

Please RSVP by emailing Mary Jane Smith at mjsmith@ten80education.com.
Don't forget to invite your colleagues, partners and friends that might be interested as well!

Thanks to our sponsors for their support.

Partnership opportunities are available. Please contact Toni Cerbo, Director of Partnerships & Outreach at (855) 836-8033 x 13 or tcerbo@ten80education.com to get involved.
